Factory Builder Stores Announces New Location: Corpus Christi

Houston, TX 9/25/09 — Factory Builder Stores, Texas' largest contract distributor announces plans for a new location in Corpus Christi, Texas.

From the company's foundation in 1988, Factory Builder Stores has continued to grow with locations in all of Texas' major markets including Austin, Bryan-College Station, Dallas, Ft. Worth, Houston-Galleria, Houston-North and San Antonio with the new Corpus Christi store being the 8th location in Texas.

Division President, Jerry Mitchel will be heading up the Corpus Christi location with great plans for growth and expansion. Scot Taylor, sales representative for Factory Builder Stores has begun work with local builders in the market, recently being voted into the Corpus Christi Builder's Associates council for 2010.

The location has been finalized and the Factory Builder stores design team has begun plans for the new "Custom Design Center Showroom" which will include a SubZero/Wolf, Viking, Thermador-Bosch, KitchenAid, GE Monogram displays along with the several custom kitchen cabinet lines that FBS supplies.

The new location, to be formally announced within the next few days, will be an exciting addition to the Corpus Christi market. In Factory Builder Stores tradition this will be a "step above" the typical appliance and cabinet selection center.
